

National Fair Housing Alliance

RESPONSIBLE AI SYMPOSIUM

Advancing a Blueprint for Tech Equity

January 18-19, 2024 - Urban Institute

500 L'Enfant Plaza SW, Washington, DC 20024

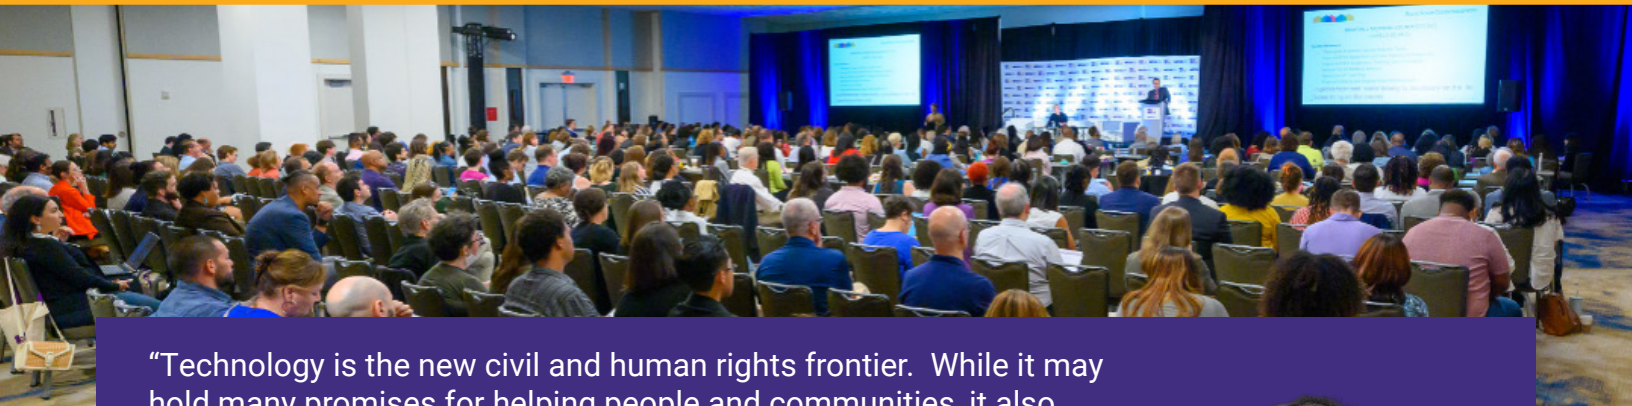

SPONSORSHIP PROSPECTUS

NFHA NATIONAL FAIR HOUSING ALLIANCE

55TH 
ANNIVERSARY OF THE FAIR HOUSING ACT

nationalfairhousing.org

“Technology is the new civil and human rights frontier. While it may hold many promises for helping people and communities, it also runs the risk of further entrenching longstanding inequities. That’s why, through our Responsible AI work, NFHA is working to eliminate bias in algorithmic systems and make the tech industry fairer and more inclusive. It is imperative that we advance policies for AI and other technologies that benefit people and communities while strengthening our economy. We look forward to convening with technologists, civil and human rights experts, researchers, public policy specialists, government and elected officials, and others to *Advance a Blueprint for Tech Equity.*”

Lisa Rice, President and CEO
National Fair Housing Alliance

NFHA invites you to take part in the inaugural **Responsible AI Symposium** in the nation’s capital. Technology is the new civil and human rights frontier. We all must prioritize centering human needs as well as principles of fairness, safety, privacy, accuracy, transparency, and explainability in the technologies we build.

That is why we are bringing together leading innovators, civil and human rights experts, regulators, researchers, and academicians to explore and lift up pioneering solutions for Responsible AI and Tech Equity. This is a conversation you will not want to miss. Join us as we build the village it will take to ensure technology is always used for good.

The Responsible AI Symposium is the last event NFHA is sponsoring as a part of our **55th Fair Housing Act Anniversary Campaign.**

“During the Responsible AI Summit, we will showcase novel methodologies for debiasing algorithmic systems and discuss new policies to govern AI including in the areas of privacy and safety. Don’t miss this rare opportunity to convene with some of the world’s foremost thought leaders on Responsible AI and Tech Equity.”

Dr. Michael Akinwumi, Chief Responsible AI Officer
National Fair Housing Alliance

The National Fair Housing Alliance seeks financial support in the form of sponsorship opportunities for its inaugural Responsible AI Symposium which will lift up solutions for developing technologies that are fair, safe, transparent, explainable, accurate, human-centered, and protect people’s privacy.

Attendees

150 - 200 researchers, innovators, civil and human rights experts, regulators, researchers, and academicians

Issue Areas

- Implementation of the White House AI Bill of Rights
- Algorithmic Fairness and De-biasing Techniques
- Ensuring Technologies are Human-Centered and Beneficial
- Data and Systems Security
- Consumer Privacy
- Explainability and Transparency Techniques
- Risk Management Frameworks
- Regulatory Compliance and AI Governance Issues
- Policy Proposals Impacting Tech

Sponsorship Benefits

NFHA is offering sponsorship opportunities for 5-7 partners with an investment of \$50,000. Sponsorship benefits include:

- Recognition on event signage and during the event
- Recognition on NFHA’s website and social media platforms
